

Sharing the Road = Working Together

Remember, no driver, cyclist, or pedestrian is the sole owner of the rights of the road. **The road is a shared space.** We all have rights and responsibilities.

Motorists should:

- Share the road with cyclists
- Allow safe clearance to cyclists (3 feet)
- Look for cyclists when opening doors when parallel parking
- Give cyclists the right of way when the situation calls for it

May is
National
Bike Month

Cyclists should:

- Obey traffic signals and stop at stop signs
- Mind lane markings
- Go with the flow of traffic, never against it

**Every bike ride begins with
putting on a helmet**
